## STATE OF NEW HAMPSHIRE

To the inhabitants of the Town of Newmarket in the County of Rockingham in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at the Town Hall in said Town on Tuesday, the 12th day of March, at ten of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year, as may be necessary for General Government, including Town Officers' salaries, town officers' expenses, election and registration and town hall; for the protection of persons and property, including the police department; for health and sanitation, including the health department, vital statistics and sewer maintenance, sidewalks, street lights and general expenses of the departments, for education, including the public library; for charities, including the decoration of soldiers' graves; for recreation; for cemeteries; for interest; for new construction and improvements, including state aid and town construction; for indebtedness, payments to other governmental divisions, including County Tax, and pay all other necessary charges arising within said town.

3. To see if the Town will vote to authorize and empower the Selectmen to borrow money for necessary expenditures in anticipation of the collection of taxes.

4. To see if the Town will vote to allow a discount of two percent (2%) on all taxes, except poll

and head taxes, if paid within 15 days after receipt of bill.

5. To see if the Town will vote to pay member of the Fire Department \$72.00 in addition to that required by law. (Approved by the Budget Committee)

6. To see if the Town will vote to accept the budget as submitted by the Budget Committee.

7. To see if the Town will vote to empower the water department to install a six inch water main running from the last hydrant on North Main Street to the town line of Durham which is approximately 400 feet. This to be financed by water receipts at a cost not to exceed \$2,000.00 (Petition). (Approved by the Budget Committee.)

8. To see if the Town will vote to empower the water department to extend the six inch water main a distance of 750 feet, from the last hydrant on New Road. This is to be financed by water receipts at a cost not to exceed \$3,500.00 (Petition). (Approved by the Budget Committee).

9. To see if the Town will vote to empower the Selectmen to purchase the Old Dump Lot on Beech Street Extension for the future use of the Town; and to appropriate the sum of \$500.00 for said purchase. (Approved by the Budget Committee).

10. To see if the Town will vote to authorize the Water Department to return the sewer department to the control of the Selectmen (Submitted by the Water Commissioners).

11. To see if the Town will authorize the Selectmen to sell the town owned lot of land on Herse lane to the highest bidder.

12. To see if the Town will authorize the Select

men to pay John A. Gordon a weekly sum which is equivalent to  $\frac{1}{2}$  pay until such time as the voters shall rescind this authorization.

13. To see if the Town will vote to have the tax Commission reappraise and Revalue the town's taxable property. (By petition).

Given under our hands and seals this 21st day of February in the year of our Lord nineteen hundred fifty-seven.

NICHOLAS ZUK,  
FRANK M. SCHANDA,  
Selectmen of Newmarket, N. H.

A true copy of Warrant Attest:

NICHOLAS ZUK,  
FRANK M. SCHANDA,  
Selectmen of Newmarket, N. H.

We hereby certify that we gave notice to the inhabitants within named, to meet at the time and place and for the purpose within mentioned by posting an attested copy of the within warrant at the place of meeting within named, and a like attested copy at the Post Office being a public place in said town, on the 21st day of February 1957.

NICHOLAS ZUK,  
FRANK M. SCHANDA,

## REPORT OF SELECTMEN

SCHOOL TAX RATE	3.45
COUNTY TAX RATE	.40
<hr/>	
ACTUAL TAX RATE	\$6.40

## **A PROGRESS REPORT FROM THE OFFICE OF SELECTMEN**

We respectfully submit to the citizens of Newmarket a summary of the projects that have been undertaken during the past year.

The Bald Hill road has been widened and surfaced making for better and safer driving at all seasons of the year.

It is now our intention to begin widening and surfacing New Road; beginning at the junction of Exeter Street and New Road and we estimate that we will be able to complete approximately six tenths of a mile per year.

The work on the Town Hall has been progressing slowly but we are able to report that the new heating system has been purchased and is now being installed. The plumbing is partially installed and the Highway Department crew are in the process of putting in the cement floor. When completed the basement will be the location of the Public Toilet facilities, Police Office, Court Room, Record Storage area and Cell Block.

The #8 Mill Lot has been purchased by the Town and is available at the present time for the parking of some 110 cars.

A cement sidewalk around the parking lot will be installed during the summer months by the Highway Department.

We, as Selectmen, are recommending the purchase of the old dump lot on Beech Street extension with the thought in mind that in the future the Town will find it necessary to have a centrally located, Public Works Department Garage and Storage area. It is our intention if supported by your confidence at

Town Meeting, to plan a building of simple cement block construction where the Town equipment can be stored and maintained.

Our regular Selectmen's meetings are on the 1st and 3rd Tuesdays of every month and we welcome your attendance. We would also like to take this opportunity to thank all the Town Officers and helpful citizens who have made our work easier during the past year.

Respectfully submitted,

NICHOLAS ZUK,

FRANK M. SCHANDA,

Board of Selectmen, Town of Newmarket

**DIVISION OF MUNICIPAL ACCOUNTING  
STATE TAX COMMISSION  
Concord, New Hampshire**

**SUMMARY OF FINDINGS & RECOMMENDATIONS**

January 31, 1957

Board of Selectmen  
Newmarket, New Hampshire

Gentlemen:

Submitted herewith is the report of an examination and audit of the accounts of the Town of Newmarket for the fiscal year ended December 31, 1956, which was made by this Division in accordance with the vote of the Town. Exhibits as hereafter listed are included as part of the report.

**SCOPE OF AUDIT**

Included in the examination and audit were the accounts and records of the Board of Selectmen, Treasurer, Tax Collector, Town Clerk, Public Library and Municipal Court.

**FINANCIAL STATEMENTS**

Comparative Balance Sheets:

December 31, 1955—December 31, 1956:  
(Exhibit A-1)

Comparative Balance Sheets for the fiscal years ended December 31, 1955 and December 31, 1956, are presented in Exhibit A-1. As indicated therein the Net Debt decreased by \$1,814.00 in 1956.

Analysis of Change in Financial Condition:  
(Exhibit A-2)

An analysis of the change in financial condition

of the Town during the year is made in Exhibit A-2, with the factors which caused the change indicated therein. These were as follows:

Decreases in Net Debt

Notes and Bonds Paid	
by Town	\$4,000.00
Long Term Notes Paid	
by Water Department	6,000.00
Increase in Accounts Receivable	678.55
Decrease in Accounts Payable	9,022.01
Town Clerk's Cash on Hand	4.00
	<hr/>
	\$19,704.56

Increases in Net Debt

Net Budget Deficit	\$9,809.92
Long Term Notes Issued	8,000.00
Yield Taxes Abated	80.64
	<hr/>
	17,890.56
	<hr/>
Net Decrease	\$ 1,814.00

Comparative Statements of Appropriations  
and Expenditures — Estimated and Actual  
Revenues: (Exhibits A-3 and A-4)

Comparative statements of appropriations and expenditures, estimated and actual revenues for the fiscal year ended December 31, 1956, are presented in Exhibits A-3 and A-4. As indicated by the budget summary (Exhibit A-4) a net overdraft of appropriations of \$9,715.02, plus a revenue deficit of \$94.90, resulted in a net budget deficit of \$9,809.92.

## Summary of Receipts and Expenditures (Exhibit B-1)

A summary of receipts and expenditures for the fiscal year ended December 31, 1956, made up in accordance with the uniform classification of accounts, is presented in Exhibit B-1. Proof of the Treasurer's balance as of December 31, 1956, is indicated in Exhibit B-2.

## AUDIT PROCEDURE

The accounts and records of all town officials charged with the custody, receipt and disbursement of public funds were examined and audited. Vouchers and cancelled checks were compared with supporting invoices and payrolls as well as entries in the books of record. Receipts were checked by source insofar as possible and totals of receipts and expenditures verified. Book balances were verified by comparison with reconciled bank balances made from statements obtained from depository banks. Verification of uncollected taxes was made by mailing notices to delinquent taxpayers as indicated by the Collector's records.

## GENERAL COMMENTS

### Appropriation Overdraft and Application of Municipal Budget Law:

It is noted that in the fiscal year ended December 31, 1956, there was a net overdraft of appropriations amounting to \$9,715.02. In other words, total expenditures exceeded total appropriations by this amount, as indicated herewith:

Overdrafts of Appropriations	\$14,833.91
Unexpended Balances of Appropriations	5,118.89
	<hr/>
Net Overdraft of Appropriations	\$ 9,715.02

Under date of October 11, 1956, the request of the Board of Selectmen to expend \$4,000.00 in excess of appropriations to operate the Highway Department for the remainder of the year on account of excessive snow removal expenses, was granted by the Tax Commission. This authorized a part of the net overdraft of appropriations, but it is noted that no request was made to expend the balance of \$5,715.02, as required by the Municipal Budget Law, R.S.A., Chapter 32.

A request for the Water Department to exceed appropriations by not more than \$4,000.00 for the installation of a new water main was granted.

#### Conclusion

The provisions of Chapter 184 of the Laws of 1955, require that this report or the summary of findings and recommendations (letter of transmittal) shall be published in the next annual report of the Town.

We extend our thanks to the officials of the Town of Newmarket for their assistance during the course of the audit.

Very truly yours,

Harold G. Fowler,

Director  
DIVISION OF MUNICIPAL  
ACCOUNTING STATE  
TAX COMMISSION

Alan R. Matthews, Auditor  
Oliver E. Gagne, Accountant

## NEWMARKET FIRE DEPARTMENT

## Statement on Conditions and Its Recommendations

The fire alarm system in town over the past years has been maintained in a workable condition but it hasn't been expanded and modernized to any marked degree. There are parts of town that do not have adequate coverage as far as street fire alarm boxes are concerned. Other parts have no coverage whatsoever. Some of the boxes are so old that no replacement parts are available. Since this system was installed there have been advancements in the design of the fire alarm boxes such as non-interfering features. That is if two boxes are pulled simultaneously, one will not interfere with the other, and will come in after the first has stopped. There is the return thru ground feature in the event of a broken wire a signal can come through the ground. There are other improvements that can be made.

To try and improve, or to go ahead and try to do the whole job in one lump would cost quite a bit of money. It is the desire of the fire department, with the approval of the Selectmen, Budget Committee, and the people of the town, to appropriate approximately \$1,000 each year exclusively for the fire alarm system. Over a period of a few years the system can be brought up to a modern system and the cost will not have been too great a burden on the town.

Following is a list of long range improvements which will be done if the plan is accepted:

1. A new compressor must be bought for the whistle. This must be done whether the plan is accepted or not. The present compressor is obsolete, and to try and repair it would cost half as much, if not more, as a new compressor. At present it has a hole in the side of the compressor and oil leaks continuously. Examination must be made periodically.

It has been in since 1935 and nothing has been done to it in the way of repairs.

Quotations have been given by different companies and the cost of the compressor, motor, and tank is around \$785. Then there is the installation cost. We feel that \$1,000 will cover this, that is, cost of the compressor and installation.

2. A fire alarm box costs about \$150 plus the freight. Each year two or three could be bought until all of the boxes are up to date.

3. People in the Maplecrest development have requested a box. A line could be run in and that area again to Main St. One of these wires could be rerouted covered.

4. At present a wire goes up Packers Falls Rd. as far as the Pumping Station and comes back down down Elm St. and up Cedar St. and out through Beech St. back to Elm. This would give the New Village area a much needed coverage.

5. At present that part of the circuit that goes to South Main and Packers Falls Rd. goes up over the R. R. bridge and also comes back down on the same st. When the wire from packers Falls Rd. is rerouted down Elm St. and the New Village, and back to Elm St. it can be further rerouted down Spring St. instead of going down to Main St. By doing this it will be possible to cover Spring St. and that area with fire alarm boxes where there are none now.

6. When this is done it will be possible to make two complete circuits as will be necessary as new boxes are added. It is recommended that about 20 boxes be on a circuit. This isn't for the load on the batteries, but as a safety factor so that the whole town wouldn't be without an alarm at once.

7. Over on Durham side the line goes down Main St. to the Ford Garage and back, and then down the new road and Ham St. The wire could be rerouted

so that it would go down the Middle Rd. at the Ford Garage, down Lamprey St. to the Bay Rd. This would open a whole new area where there is now no boxes.

8. As the new boxes are installed to have a return ground feature a new panel, or central station, equipment would be bought to tie in with the new boxes and that feature would be in operation.

9. At strategic locations around town jumpers would be installed so that in the event of trouble in a section the rest of the system would be in operation.

10. These are tentative plans and probably by the time arrives new ideas may be more practical.

### POLICE DEPARTMENT REPORT

This report is submitted by your Police Department for the year ending December 31, 1956.

We received and investigated 116 complaints.

Investigated and made reports on 81 automobile accidents.

Received by telephone and Western Union 30 emergency calls.

Served and processed 9 out of state summons.

Rendered assistance to other departments in 27 cases.

Found and reported a total of 123 doors in business establishments unlocked.

Fingerprinted 27 persons here by us for the Federal Government.

We have had 17 missing person reports, all located through our efforts.

Value of lost and stolen property recovered and returned to owners \$3,566.00.

During the year 7,644 man hours were used in giving complete coverage to the town at all times. A total of 27,180 miles were covered with the police cruiser.

You will note in the item Sources of Revenue a decrease in the meter receipts and fines. In this respect I would like to call your attention to the fact that these meters have been in constant operation now for nine years and are showing signs of wear, therefore they are not operating as efficiently as they should. We must also take into consideration weather conditions, such as heavy rains and snow storms and the extreme cold weather that we have had which all affect their operation.

Having been appointed by the Board of Selectmen to represent the Town as your Chief of Police is a privilege and honor and I will do my utmost to merit the faith and trust placed in me and to serve you to the best of my ability. I would also like to thank the other Town departments and the citizens of Newmarket for their cooperation with the Police Department during the past year.

Respectfully submitted,

JOHN VALLIERE, Chief

Newmarket Police Department

FROM THE  
BOARD OF WATER COMMISSIONERS  
TO THE  
VOTERS, TAXPAYERS, AND WATER USERS  
OF THE  
TOWN OF NEWMARKET, N. H.

*Covering Methods For Providing Improvements  
And Extensions To The Town Water Service*

Your Board of Water Commissioners is endeavoring to improve the water service in the Town of Newmarket.

This covers water supply, water delivery, extensions of present water mains to serve new developments, replacement of present mains of inadequate size and obtaining new water resources in anticipation of future growth of the town.

As a part of this program a new set of Rules and Regulations has been made up and distributed to the water users of the Town.

The principal change is the inclusion of new articles 15 and 16 covering MAIN PIPE EXTENSIONS.

These articles specify the conditions when such extensions will be approved and installed; and how a reasonable division of costs is made between the Water Department and the property owners who are benefited.

A second problem which faces the Town is the limited amount of good water available. Our present water resources are sufficient for only a moderate increase in the population, but they are not adequate to serve a possible new industry wishing to locate here

and which would require a considerable amount of water for process use.

Preliminary studies have been made (at no cost to the Town or Water Department) which will prepare the way for more complete investigation when it is considered necessary.

It would seem advisable to know what our possible water resources are before, rather than after, some such industry considers locating in Newmarket.

A third problem is the inadequate size of some of our present water mains. Our water system was originally laid out for a smaller town. Pipes of a size adequate for the original town have been called upon to carry more water as the town has grown and new extensions have been made. They will become increasingly over-loaded as future extensions are made to serve increased demands. This, of course, will result in insufficient water pressure for an increasing number of water users.

Some of these problems may be of immediate importance, but a much better water system could be developed if they were considered as a whole, whenever small extensions are required.

An important part of our problem is financial. It costs more money to install a water main of a size to take care of future needs than for one sufficient only for present requirements.

In this connection a review of the relationship between the Water Department and the Town government may help.

The financial relationship between the Water Dept. and the Town of Newmarket, as has apparently existed up to the present time, is indicated in the 1937 Report of the Newmarket Water Dept. to the State Public Service Commission, Page 103, Table

## 27, "Municipal Appropriations During Year."

"NO TOWN APPROPRIATION. WATER DEPARTMENT OPERATES ON OWN RESOURCES, AND WHEN FINANCIAL CONDITION WARRANTS, HELPS OUT THE TOWN FINANCIALLY."

This attitude has had a deadening effect upon the Water Dept. to improve and extend its service, as it seemed to be the feeling that whatever money was saved for such a purpose would be taken over for Town expenses. It also was not healthy for Town officials to feel that whatever savings were made by the Water Dept. over bare operating expenses, were, by right, to be appropriated by the Town.

The same state of mind seems to have existed when, some years ago, payments by the Town to the Water Dept. were discontinued for water used in schools and other public buildings and for hydrant service.

As a result, whenever extensions, improvements or major replacements have been required it has been necessary for the Town to appropriate and borrow money, which later the Water Dept. was required to repay with interest from water revenues.

In the last two years this method has been used in the replacement of two major pumping units and to pay for new supports etc. for the water main crossing the Lamprey River under the new bridge, the total coming to some \$10,000, which the Water Dept. is now paying off. This debt may be cleaned up in the next two or three years if some other emergency does not arise.

There will be other expenses coming up for maintenance and replacements which will absorb any savings for several years to come.

This would leave nothing in the immediate future

to cover the costs of extensions to present water mains, were it not for articles 15 and 16 in the new Rules and Regulations already referred to. Even with these provisions, moderate extensions only could be financed without borrowing.

Additional money definitely will be required for any considerable extensions or changes to existing mains and toward acquisition of future water supply.

In whatever manner it is determined to obtain this additional money, it will come from the taxpayers or from the water users.

The following methods for obtaining this money are given.

#### 1. FROM THE TAXPAYERS:

Appropriations voted at Town Meeting, to be paid for out of Town monies and not from Water Dept. revenues.

An argument in favor of this method is that, as water service is extended to a definite property, the taxable value of the property is increased, with corresponding increase in tax returns to the Town.

#### 2. FROM THE TAXPAYERS

Re-instatement of the practice of being paid by the Town for water used in schools and other public buildings and for hydrant rentals.

At present this fiction of payments by the Town is only a bookkeeping procedure in the Annual Report of the Water Dept. to the State Public Utilities Commission, since no money is received for these services by the Water Dept.

If the amounts given in these reports were actually received by the Water Dept., it would increase the revenue between \$4,000 and \$5,000 per year.

#### 3. FROM THE WATER USERS

Increase in water rates.

An increase of about 14% in rates would increase the water revenue between \$2,000 and \$3,000 per year.

This should be considered with extreme care since present rates are among the highest in the region.

#### 4. FROM WATER USERS AND ABUTTING PROPERTY OWNERS ON A NEW EXTENSION.

Dividing the costs between the Water Dept. and the abutting property owners as outlined in the new edition of Rules and Regulations of the Newmarket Water Dept., articles 15 and 16, covering MAIN PIPE EXTENSIONS.

Abutting property owners would pay all costs over that which would be amortized by the Water Dept. from revenues received from the services on the new extensions. This is similar to the method now used in Durham.

The following seems to be general practice.

Any considerable increase in water user rates would place an undue burden upon the people who are being serviced. It is generally considered desirable to have the rates of a public enterprise cover operating costs and provide a cushion for minor improvements in the water system. Over a period of years a capital improvement fund could be built up by this method.

It is also sound practice for other departments of the Town to pay for their water service if the Water Dept. is to be expected to operate as a sound business enterprise. Generally speaking, little distinction can be made between private and public water users.

Extensions to the water service should be paid by abutting property owners over that part of the

cost which would be borne by the Water Dept. and which could be amortied over a reasonable time.

As the Water Dept. is a regular Town department, then the Town has some responsibility for and receives considerable benefit from the growth of the Water Dept. Consequently the Town should have an interest in contributing to regular appropriations to the capital improvement of the Water Dept.

Except in extreme emergencies, there is little value in thinking of the Water Dept. as a means of supporting the other functions of government. This is the purpose of property taxation in New Hampshire.

The foregoing is submitted with the hope that it will help you to come to informed decisions whenever action is required. Correct solutions to our problems will require cooperation between everyone interested: voters, taxpayers and water users, as well as Town officials and the Water Dept. If our water service is to keep pace with the growing needs of Newmarket, it must be put on a sound business basis.

It is respectfully suggested that you keep this statement for reference when considering proposals which may be voted upon at the coming or future Town Meetings.

## SCHOOL WARRANT

To the Inhabitants of the School District in the town of Newmarket, N. H. qualified to vote in district affairs: Polls open 10:00 A.M.—8:00 P.M.

You are hereby notified to meet at the Town Hall in said district on the 26th day of March, 1957, at ten o'clock in the morning, to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agent of the district.
6. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.
7. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.
8. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state foundation aid fund together with other income; the school board to certify to the selectmen the balance between the estimated revenue

and the appropriation, which balance is to be raised by taxes by the town.

9. To choose a Member of the School Board for the ensuing two years.

10. To see that a sum of Four Hundred Dollars (\$400.00) be appropriated for the purpose of Auditing the Newmarket School District Books, and the Audit to be performed by the Auditors from the Office of the State Tax Commission.

11. To see that a sum of One Hundred Dollars be raised to be spent on spraying of Poison-Ivy plants on grounds surrounding the Playground Activities in the rear of the High School.

12. To transact any other business which may legally come before this meeting.

Given under our hands at said Newmarket this eighth day of March, 1957.

## REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of the Town of Newmarket, N. H.:

We have heard a great deal about reading in our schools. I believe that you parents will welcome the opportunity to come behind the scenes with me in order to gain an insight into what our reading program is endeavoring to do for our children.

A child's success in school, as well as the pattern of his personal and social adjustments later on in life, will be greatly affected by the success with which he makes adjustments in reading during the early years of his life.

When children enter school they differ in many ways that can be measured. They differ in height, weight, strength of grip, emotional control and ways of working and playing with other children.

They differ in their perception skills, their ability to follow direction, their language powers, their home backgrounds and their readiness to read.

When they face their first teacher in school they differ in their capacities, achievements, attitudes, abilities and interests. The teacher is confronted with the problem of adopting materials and methods to the needs of each child.

The problems of providing for the range of abilities tend to multiply as the children grow older. In a typical upper grade classroom, children may vary five or more years in reading ability. The range tends to increase as the number of school years increase.

The teacher must have ways of determining how efficiently each child reads so that appropriate reading material may be selected. It should be realized that all pupils cannot be brought up to a single standard of reading achievement in any grade. Various

materials are used by the skilled teacher in dealing with reading needs of children. Grouping of children in certain classes according to their achievement level as well as into groups within classes helps reduce the range of reading in each group. Such groupings need to be flexible to allow for differences in the rate of growth of children.

Elementary teachers face the necessity of providing quiet activities for the children not in the particular group engaged in intensive reading. These activities may be related directly to reading, such as reading a library book silently or drawing pictures to illustrate some part of a story which has been read.

Reading materials of various levels of difficulty are needed to meet the abilities found in each group. Free reading periods may be used to stimulate interest in reading.

Teachers at all levels are alert to teach the reading skills needed in their subjects. The reading skills needed in mathematics class are different from those required in reading a current magazine.

The teacher who is responsible for a particular subject is in the best position to provide help in overcoming difficulties for many pupils because through practice and training he is able to identify the need at an early stage and to provide some special help.

This teacher understands the kinds of reading skills needed to do effective work in his subject and helps pupils develop the particular one which will be of greatest value at the time of need.

Instead of further reading practices of the kind on which the pupil has been failing she offers specific help, directed toward a particular need. New reading material is used and the teacher uses additional tests to help in planning the individual's program.

In order to plan the pupil's program, a diag-

nostic and remedial program based upon the work of the regular classroom teacher is a fundamental part of an effective reading plan which provides for the individual differences in the reading abilities of the children.

### Looking Toward the Future

Never in the history of education has the shortage of schoolhousing been so acute, serious and confusing. This year marks the greatest number of registered children in our schools. In the near future, a serious shortage of classroom facilities will be in the upper four or six grades. Making the situation more difficult is the rising cost of bond interest due to federal policies, the continuing shortage of building materials, and increasing rise in labor costs.

Because of the present and future housing difficulties in our schools, I urge the serious need of studying building plans with other educational groups in our area—thinking in terms of educational efficiency and ultimate economy. Only through determined study with representative groups of our neighboring communities, can a solution be reached.

I wish to thank the school board, parents, friends, teachers and pupils for having made the year one of success.

Respectfully submitted,

GEORGE P. SULLIVAN,

Superintendent of Schools

## PRINCIPAL'S ANNUAL REPORT

To the School Board and Citizens of Newmarket:

It is with great pleasure that I submit this my first annual report as principal of Newmarket High School.

## Teachers

Once again Newmarket High School was plagued by teachers leaving the system, however, the school was very fortunate in one respect, the replacement teachers are well prepared in their respective fields and have lost no time in putting their entire efforts into doing an excellent job.

Mrs. Joan Harrington replaced Mrs. Irene LaBranche as home economics instructor and she in turn was replaced by Mrs. Dorothy Shorey. Mr. Charles Ackerman was hired as shop teacher and replaces Mr. Fred Farley. Mrs. Claudia Cloutier replaced Miss Marjorie Wood as English teacher. Mr. Lawrence Enos replaced Mr. Forest Miner as social studies instructor. Mr. Paul DeGross replaced Mr. Anthony Cirillo as junior high teacher and social studies teacher. The principal, Mr. Rexford Avery left also, and Bernard C. Forbush assumed his duties.

## Curriculum

Your faculty and principal have examined our curriculum very carefully and have found a few disturbing factors, namely, many students have used little thought in choosing their subjects. As a direct result they approach graduation with nothing more than a conglomeration of subject matter but no completed course of study. Another thing, many upper classmen have chosen freshmen subjects which is wrong, for it hampers the underclassmen, due to their

lack of experience and at the same time it is rather a waste of time to the upper classmen, for the mode of the class is geared to the less mature.

On the bright side of the picture, the dual track English program of Practical and College Preparatory English is helping all students to better understand their native tongue at their own ability level. The mathematics department has introduced a course of advanced algebra and analytical geometry to meet the needs of the advanced students of mathematics and science.

### Changes and Improvements

The purchase of thirty arm chairs has made it possible to eliminate the use of class rooms as study halls. The only study hall now in the building is the old auditorium which has many advantages. Now, with the majority of the reference texts in this room the students can do their reference work in one room. It is hoped that before long a complete library can be placed in this room.

### Extra Curriculum

Our extra-curriculum program stays about the same. It covers many activities, namely, intermural athletics, inter-scholastic athletics, plays, National Honor Society, Student Council, Glee Club, Future Homemakers of America and yearbook.

The only new activity is the Future Homemakers of America which was started this fall. It is open to all girls in grades 7 through 12 and is affiliated with both the state and national organization.

All students in the building receive two periods of physical education a week. Their training includes calisthenics and many group games. This program has filled a vital spot in our over-all program.

I should like to extend my thanks to the School

Board, Superintendent, Teachers, Townspeople and Denny for your interest and understanding. Schools are not separate and should not be separate from the community, and collective action is the only answer to developing and producing well-integrated citizens that will be a credit to Newmarket and to the increasingly complicated world. We have, to the best of our abilities and resources tried to install the needed tools to produce such individuals.

Respectfully submitted,

BERNARD C. FORBUSH,  
Principal

---

## TOWN MUSIC REPORT

### Elementary :

With the acquisition of a piano for each classroom the singing instruction has been made very effective. In grades one and two, most of the time is spent on the teaching of songs. There is only occasional instruction on rhythm and pitch. It is important that the children in these primary grades get as much enjoyment as possible from the music period. Too much technical instruction at this level could defeat its own purpose. In grades three, more instruction on note singing and rhythm is taught. Some two-part singing will be attempted near the end of the school year. Grades four through six are the best levels for technical instruction on music reading. It is possible to do much two-part work and some three-part singing will be attempted in grade six.

### Junior High School:

Grades seven and eight have two periods of music each week. One period is devoted to instruction in theory of music and music appreciation. Many records have been acquired in the past two years. Some of these were purchased and others were donated by citizens of the community. These records have helped this phase of instruction a great deal. The second weekly period is devoted to singing. Much of the work is two-part.

### Senior High School:

It is disappointing to report that very little music has been experienced by the high school students. Because of a scheduling problem during the first half of the year, the Glee Club rehearsed approximately 150 minutes. Inasmuch as there are so many other activities which require much of the students after-school hours, it has been found impossible to find a time for rehearsing a potentially good singing group. One of the greatest handicaps to the instruction of music in the high school is the lack of good facilities. There is no convenient storage space for music, and the rehearsal area is very poor.

Respectfully submitted,

LEWIS E. CROCKER,  
Director of Music

## SCHOOL HEALTH PROGRAM 1956

## High School

Pupils Examined	173	Corrections
Defective Teeth	20	153
Defective Eyes	14	20

### Dental Clinic

The Dental Clinic held every Thursday at the offices of Dr. Getchell, Dr. Robshaw, Dental Clinic sponsored and cared for by the Newmarket P.T.A.

### Report of Work Done

#### 14 Central School Children Grade 2

##### Dr. Getchell:

Examined	14
X Rays	28
Treated	15
No work needed	1
2 Transferred from Dr. Robshaw	
Hours of work 19½	
No. of Distraction	50
No. Extractions	0

##### Dr. Robshaw:

2 St. Mary's Grade 2

- 22 Children Examined
- 19 Needed work done
- 44 X Rays
- 49 Fillings
- 1 Extraction

We are still gaining greatly in Dental corrections and care of the teeth in all our schools. It is very gratifying to see so many of our school children returning to school who have had dental care.

Older boys and girls are doing a good job as to care of their teeth especially the high school.

Our school clinics were held at both Central and St. Mary's School.

St. Mary's	41 attended
Central	29 attended

All Children were weighed and measured, also had Eye Test, Ear Test. Mrs. Madeline Given, Dental Hygiene State Dept. attended both Clinics, examined teeth and gave mothers advice and each child a new toothbrush.

338 School children have two Polio Shots. Clinic held April 16—October 8th. Make up Clinic held Dec. 11, 1956. All children who have had two shots will have a chance for "Booster" in early spring.

Parents—Protect your child, consult your family doctor if your child has had no Polio Shots.

All school children are to have TB Patch Test in April 1957.

Parents of children who are to enter school in September 1957 please have your child vaccinated early before June 1st if possible. Your child must be vaccinated before entering school or present an excuse from a doctor. This is state wide. Ask your doctor about Booster Shots before entering school.

## Hot Lunch Program

Hot Lunch Program still carried on by the P.T.A., and town in the Central School.

Mrs. Jones said she is serving 150 to 160 meals each day. Parents of children at St. Mary's please make an effort to work for a Hot Lunch Program for the coming year. Children need it.

Thanks to all for the help and cooperation.

MYRTLE V. FLETCHER,  
School Nurse
